SPARSH SAHU Full-Stack Java Developer

Portfolio 7974772962 **Q** 33,Anmol nagar **S** sparshsahu8435@gmail.com

PROFILE SUMMARY

Full-Stack Java Developer proficient in Java EE, Servlets, and JSP, with hands-on MVC architecture experience. Built EaseHealth using model-view-controller pattern with JSP for presentation, Servlets for control logic, and MySQL for data layer - achieving 40% faster processing. Skilled in RESTful APIs, JDBC, and frontend technologies (HTML5, JavaScript, Bootstrap). Passionate about writing clean, maintainable code with proven performance optimization. Seeking a Java Full-Stack Developer role to build scalable solutions.

SKILLS

Frontend: HTML5, CSS3, JavaScript, Bootstrap, AJAX (Fetch), JSTL, Expression Language (EL)

Backend: Java EE, Servlets, JSP, RESTful APIs, MVC Architecture

Database: MySQL, JDBC

Tools & APIs: Apache Tomcat, Postman, Gson, Github, VS Code

PROJECTS

EaseHealth- Healthcare Appointment System

Technologies: Java EE, Servlets, JSP, MySQL, JDBC, Rest APIs, JaSypt, HTML5, CSS3, Bootstrap, AJAX (Fetch API)

Problem Statement: Traditional healthcare systems face challenges like manual appointment scheduling, limited medical record access, inefficient communication, and long patient wait times due to overlapping or uncoordinated bookings.

- Developed a **production-ready healthcare system** to digitize doctor-patient interactions and streamline clinical workflows.
- Integrated real-time appointment scheduling and digital prescription management, reducing patient wait times by 40% and improving booking efficiency by 50%.
- Configured **RBAC** and OTP-based authentication to ensure secure access to sensitive medical data.

Full-Stack Seller-Centric Product Portal

Technologies: Java EE, Servlets, JSP, MySQL, JDBC, HTML5, CSS3

- Developed a full-stack CRUD-based web application enabling sellers to manage 100+ products and orders, leveraging Java EE, Servlets, JSP, and RESTful APIs for robust backend functionality.
- Integrated secure email-based authentication, improving user verification and session security by 40%, and implemented JDBC for optimized SQL query performance.

EDUCATION

Bachelor of technology (Computer Science)

Shri Ram Institute of Science and Technology

Jabalpur, India

Senior Secondary

2021 - 2022

Modal High School Jabalpur

Jabalpur, India

2022 - 2026

2019 - 2020

Remote

Secondary Samdariya Public School

Jabalpur, India

PROFESSIONAL EXPERIENCE

FrontEnd Developer 06/2024 - 07/2024 Code Alpha

• Designed responsive web interfaces using HTML5, CSS3, JavaScript, and Bootstrap, ensuring cross-device compatibility.

· Improved user engagement through intuitive navigation and close collaboration with backend developers for seamless API integration.

Java Developer 05/2024 - 06/2024 Cognifyz Technologies Remote

- Developed Java modules applying OOP, file handling, and modular design principles, improving code reusability and data processing efficiency by 30%.
- Implemented structured debugging practices, enhancing code accuracy and reducing error resolution time by 15%.

CERTIFICATIONS

Java Foundation Certification: Infosys Springboard | August 2024

PowerBI: Forage - pwc | April 2024

Postman API Fundamentals Expert: Postman | April 2024
